

# CAT VEHICLE REU 2019

Scientific Writing with Latex

Rahul Bhadani <[rahulbhadani@email.arizona.edu](mailto:rahulbhadani@email.arizona.edu)>

# Installing Latex and a latex editor

- ❑ `sudo apt-get install texlive-full`
- ❑ `sudo apt-get install texmaker`

# Basic Tutorials

- ❑ Please go through: <http://bit.ly/2WHLZMF> , <http://bit.ly/2IbjajS>
- ❑ We will not be discussing each and every aspects of latex but only a portion that is relevant to writing a scientific document for reports, conference papers, etc.

# Download the template

- ❑ Clone the <https://git.engr.arizona.edu/catvehicle2019/latex-tutorial/>
- ❑ I have put some templates in latex that will be useful to you.
- ❑ I am going to explain a couple of things that are essentials for writing any scientific papers and reports.
- ❑ This is mostly hands-on session where you will learn by doing things.
